

# experience insight

On December 30, 2010, the Centers for Medicare & Medicaid Services published a new cost report for hospitals to use for years beginning on or after May 1, 2010. The new 2552-10 form will require hospitals to make several changes in the way they report, track and retain information used for cost reports. Please join us for an informative webinar that will provide you with an overview of the significant changes and key areas hospitals should focus on as they prepare for these changes. **With a top 10 U.S. CPA and advisory firm, you'll experience insight from industry professionals with a deep understanding of health care, your organization and you.**

## To Register
