

# experience insight

Whether you're looking to implement a brand-new electronic health record (EHR) system or upgrade the one you have, you'll need guidance on the requirements and recommended steps. **BKD's insight can help you decipher federal EHR imperatives**, understand the management of EHR upgrades and/or acquisitions and identify key changes to the *Health Insurance Portability and Accountability Act* (HIPAA) affecting your EHR system.

In this informative, free, one-hour webinar, we'll give you insight into achieving meaningful use and show you strategies for developing a security management and compliance model. **Register now to take advantage of our expertise.**
